

**155W CO2 Laser
1200W Fiber Laser**

**M Laser Software
Included**

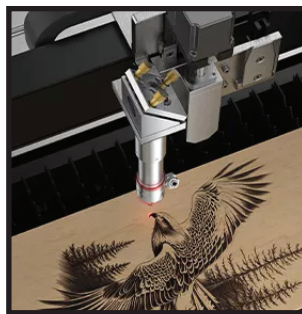

INDUSTRY LEADING

**2 YEAR
Limited Warranty**

One Machine - 6 Processing Methods

Metal Cutting

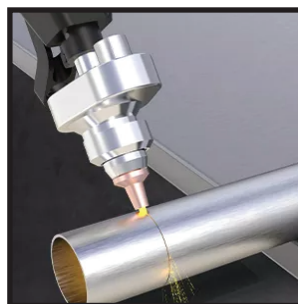

CO2 Engraving

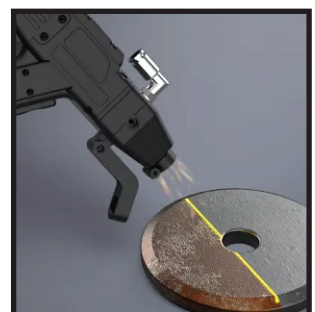

CO2 Cutting

Laser Welding

Handheld Cutting

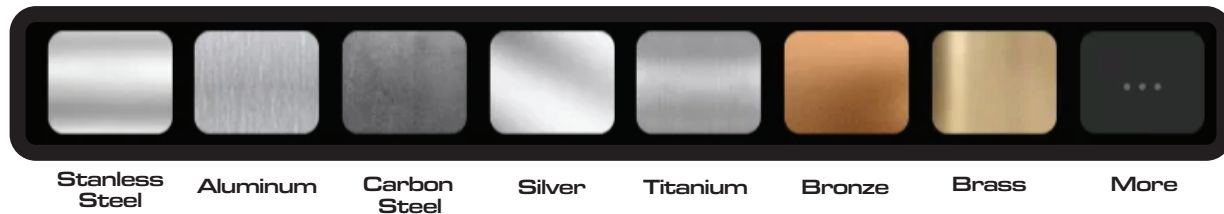

Laser Cleaning

The **BOSS Versa Tool 6 in 1 Laser** combines the power of a 1200w Fiber Laser and a 155w CO2 laser all in one machine. With the capabilities of precision laser metal cutting, welding, and a CO2 laser for engraving and non-metal cutting. By replacing multiple machines in to one, it reduces cost, achieves welding up to 5x faster and delivers razor sharp accuracy - making advanced laser processing more affordable and accesible than ever before.

1200W Fiber Laser

Cutting | Welding | Cleaning

155W CO2 Laser

Cutting | Engraving

SPECIFICATIONS

Cutting Area	54w" x 36h")	Mounting Type	Floor Mounted
Machine Dimensions	86"L X 71"W X 43.3"H	Communication	Ethernet
Material Platform	Equippeed w/Knife Blade cutting	Warranty	2 Year Limited Warranty
Net Weight	1340lbs.	Operator Interface	Touchscreen HMI (for Fiber)
Power Requirements	110/220v AC, 50/60Hz, single-phase	Software Interface	M Laser Software
Control Voltage	24VDC	Motor type	Servo Motors
Laser Power	1200w Fiber Laser, 155w CO2 Laser	Venting Attachments	Air exhaust fan with venting pipe
Wavelenght	±0.02 mm	Material Capability	Organics/Non-Metal & Pre-Treated Metals
Repeatability/ Accuracy	Auto Z-Table lowers 7"	Class	Class 4 laser
